

Declaration Letter

To Whom It May Concern:

This letter confirms that 3billion, Inc., is a company providing genetic testing services, specifically biological specimens from humans.

The type of specimen 3billion, Inc. accepts are genomic DNA, whole blood, and buccal swabs. These specimens are for genetic testing, and are non-hazardous, noncommunicable and not for resale.

Genomic DNA is in a microcentrifuge tube or PCR tube, and whole blood is in EDTA tubes with a volume of no more than 1 mL. The buccal collection kit is composed of a plastic box containing a specimen collection tube. The buccal collection kit is used for collecting and transporting a human specimen from the patient back to 3billion Inc. for genetic accession, isolation, identification, and report generation.

The other components inside the kit are a leak-proof plastic zip-lock bag, an absorbent cloth, a form to be filled out by the patient's physician, a return shipping label, and a clinical lab pack.

Please feel free to contact us with any further questions.

Best regards,

3billion Inc.
